

vgbe Quality Award 2025

Make excellent quality visible!

The «vgbe Quality Award» is given to raise awareness in the industry of the commercial importance of quality and to recognise partner companies that have demonstrated exceptional quality in the execution and provision of their services.

The «vgbe Quality Award» covers all electricity and heat generation technologies: hydro, wind energy, biomass, biogas, photovoltaics, thermal waste treatment, nuclear, oil, gas (including H₂) and coal-fired power plants, as well as storage technologies and all project stages: new construction, refurbishment, maintenance and decommissioning.

Who may submit a proposal?

All ordinary and sponsoring members of vgbe are invited to propose projects and companies. The size of the projects and the companies involved do not play a role here.

What is the benefit of the «vgbe Quality Award»?

- vgbe will award a 1st, 2nd and 3rd place.

The award ceremony for the first place winner will take place at the vgbe Congress 2025 in Vienna, Austria, 24 and 25 September 2025.

The nominating company of the winner of the «vgbe Quality Award» and the award-winning company will receive a complimentary ticket to attend the vgbe Congress.

Additionally the first-place includes a publication option in the vgbe energy journal.

- The second and third place will be named at the ceremony and will also have the opportunity to present their projects in the vgbe energy journal.
- All award winners will be given the opportunity to present their projects at a subsequent vgbe event of their choice.

What are the criteria to be considered?

- Performance of the service or manufacture
- Adherence to scheduling and budget
- Informing the client of problems and solutions approaches
- Implementation of health and safety standards
- Planning and organisation of the project/communication
- Documentation of the overall project and the quality delivered
- Justification: Why is the project a good example of excellence?

Who are the members of the award committee?

The proposals will be evaluated by a jury, consisting of members of the vgbe Steering Forums «Wind Power», «Hydro Power», «Future Energy System», «Thermal Power» and «Nuclear Power».

How can a proposal be submitted?

Please submit your proposals online under <https://t1p.de/13vdf>
Further information can be found here: <https://t1p.de/vgbe-aw>

The awarding body is international.
Therefore, we require English-language documents.

Deadline for nominations: Friday, 27 June 2025.
